

POSTER COMPETITION

**BRITISH
SCIENCE
WEEK**
8-17 March 2024

This year, WLJS pupils will get creative and enter the British Science Week annual, UK-wide poster competition! Pupils need to create a poster which fits in with the theme of 'Time'.

The top 5 submissions will then be submitted to the British Science Association for the chance of winning an array of prizes.

Please read the details below and bring in your poster by **Wednesday 20th March 2024**.

Instructions

To come up with ideas for your poster, think about time – *what does it mean to you and how does it relate to the science you've learnt about?* Consider the following points to get your creative ideas flowing:

- Think about your own time – how do you spend it? At home, out playing in the park, completing arts and crafts, learning at school?
- What about time in the world, and beyond? How do we measure time – seconds, days, seasons, centuries? What about time in space?
- Are there any scientists you know of whose work relates to time?
- How has technology changed over time? Or has the advancement of time-telling technology itself changed?
- How do you think the world might look in years to come?
- How is time reflected in nature - lifecycles, lifespans, evolution and hibernation?

Rules

Once you've done your thinking, it's time to get creative.

Posters must be **A4** or **A3** in size.

You can include pop-up pictures or pull-out tabs and can use materials such as pencils, paints, crayons and paper to create your poster.

Posters will be judged on:

- creativity;
- how well they fit the theme of 'time';
- how well they have been made or drawn;
- how engaging and eye-catching they are.

Once your poster is complete, pass this to your class teacher (by Wednesday 20th March) who will pass it onto Miss Poysden (6P).

Deadline:
Wednesday
20th March
2024

Kit list

Paper (A4 or A3)

Creative materials
such as:

pens
pencils
scissors
glue
watercolours
paint
crayons
pipe cleaners
felt
thread
wool
foil
clay
string
beads
stamps
foam
pompoms
