

Using PowerPoint.

Some of the lessons that are being uploaded to Showbie are being created in PowerPoint and have voice narrations on them. To be able to play these sound files you will need to download the PowerPoint first to do this follow the steps below:

First of all you will be able to see if there are sounds to be played when you open the PowerPoint in Showbie as there will be a speaker icon as seen below.

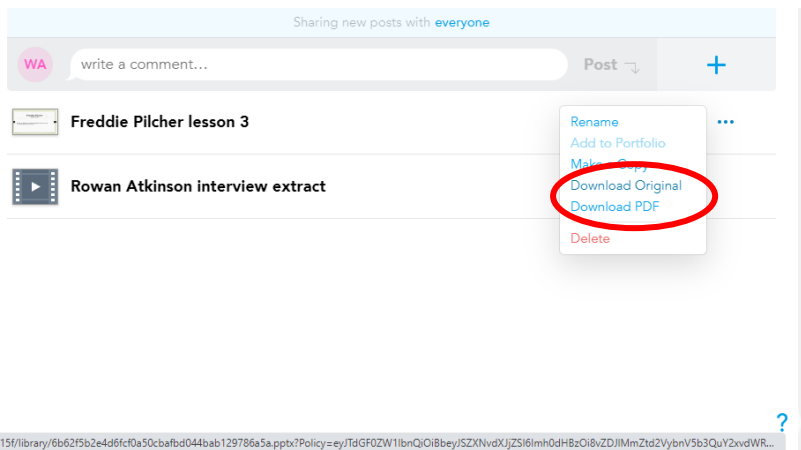

To download the PowerPoint, click the arrow pointing down in the bottom right corner and select download PowerPoint.

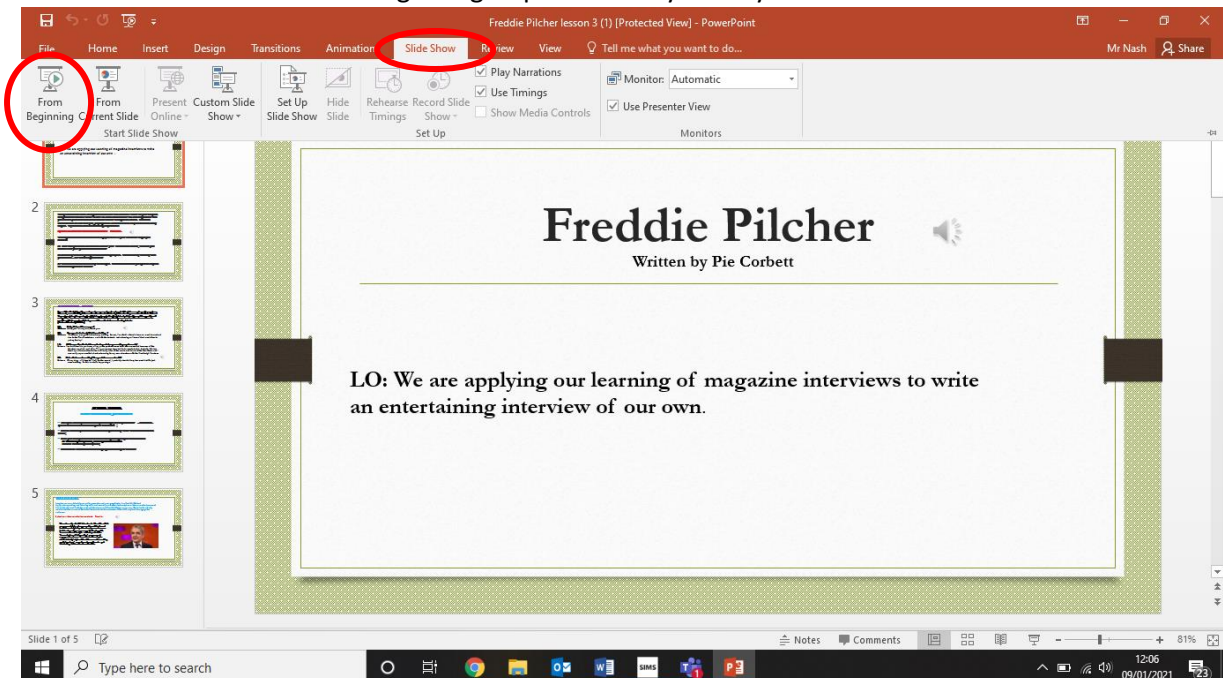

You can also download any documents by clicking on the three dots on the right of the document and clicking download. For a PowerPoint click download original.

Note: If you have links that your teacher has put on a document for you to look at and you are unable to click on them, you will need to download the document to be able to click the links.

Once downloaded open the PowerPoint and start the slide show. To do this you can go to the slideshow tab and click from beginning or press F5 on your keyboard to start the slide show.

Once the slide show starts, hover over the speaker icon and then press play.
