

French Long Term Planning 2023-24

Pupils at West Leigh Junior School receive a weekly 30 minute lesson, delivered by a specialist French teacher who is also a native French speaker.

Our scheme of work consists of a series of topic-based units. These units ensure pupils 'progression not only in terms of vocabulary acquisition but most importantly in terms of development of linguistic skills through the gradual introduction of core structures and grammatical knowledge which are regularly revisited and built upon.

A multisensory and kinaesthetic approach is used to address and engage all types of learners. Songs, rhymes, games, mimes and role-plays are used to teach the language although we aim for a balance of spoken and written language to meet the requirement of the **National Curriculum**.

We endeavour to make the process of learning an exciting and memorable experience and foster in all our pupils a positive attitude towards language learning.

	Autumn Term	Spring Term	Summer Term
