

13 November 2025

Dear parents / carers,

I am pleased to see that so many swimming badges are being earnt and hope that the children are proud of their achievements. In order to continue to have our amazing swimming pool, I need to ask if parents can, where possible, make their contributions to swimming lessons via Arbor if you have not yet done so. The process is slightly different this year as we have our new payment system so I thought it would be best to explain how it works.

Once logged into the Arbor app, you need to click on the trips button in the activities section. Arbor classifies swimming as a trip.

Once in the trip section, click on swimming contributions.

You will need to click to register your child for swimming in the same way that you would a trip.

Once registered, you then have the option to pay for a term (£16) or for the whole year (£48).

We understand that everyone's finances are different, and will always help when we can. We simply cannot run the pool without parental contributions. We do not make a profit on the pool and receive no external funding for it.

Thank you for your continued support.

Yours sincerely

Mr M Aggus

Principal
